¹ Larcenies not separately reported. Figure listed includes both major and minor larcenies.

² Figures include offenses committed by juveniles; this is in accord with the uniform reporting procedure followed by other cities.

Supplement to Return A Data

In 286 cities over 25,000 in population, 22,975 persons during 1945 were personally accosted by thieves who robbed them of property valued at \$3,363,739. Robberies for 1945 are up in every category with bank robberies showing a 171.4 percent jump¹ followed by a rise of 76.9 percent in oil station holdups. As indicated in table 38, each type of robbery is on the increase: Highway robberies, +20.7 percent; commercial house robberies, +27.1 percent; chain store robberies, +10.3 percent; residence robberies, +15.9 percent; and miscellaneous robberies, +10.3 percent.

It should be remembered that these figures are based on reported crimes in a somewhat limited number of cities; however, the data include the reports of a substantial portion of the larger communities of the country representing a combined population of 32,627,779 and accordingly, the trends reflected are significant. All complete supplementary reports received for the year were used in the compilations.

¹ Bank robberies increased from 14 to 38 in the 286 cities from whom complete supplementary returns were received. Other available information indicates that bank robberies for the Nation as a whole, though definitely on the rise in 1945, did not show such a sharp increase.
