¹ Larcenies not separately reported. Figure listed includes both major and minor larcenies.

² Figures include offenses committed by juveniles; this is in accord with the uniform reporting procedure followed by other cities.

Supplement to Return A Data.

Supplementary offense reports received from 56 cities over 100,000 in population during the calendar years 1941 and 1942 showed that although burglary and larceny decreased last year, the average value of property stolen per offense increased to such an extent that the total loot stolen in burglaries and larcenies in 1942 exceeded the total for the previous year.

These 56 cities reported a total of \$4,495,679.99 in property stolen in 68,033 burglaries during 1941. Last year, although 5,577 fewer burglaries occurred, the total loot increased to \$4,638,016.59. The average value of property stolen per offense of burglary rose 12.4 percent from \$66.08 in 1941 to \$74.26 in 1942.

The 56 cities represented in tables 31 and 32 reported 183,640 larcenies in 1941 with a total value of property stolen of \$5,826,158.47. Last year these offenses declined in number to 171,287 but the value of property stolen showed a slight increase to \$5,835,581.98. The average value of property stolen per offense of larceny rose 7.4 percent from \$31.73 in 1941 to \$34.07 last year.

Although minor larcenies showed decreases, those involving property valued in excess of \$50 increased 10.3 percent. Pocket-picking rose 15.6 percent; bicycle stealing, 10.1 percent; and shoplifting, 9.2 percent.
